

**Information Card**  
**Before You Begin**

1. Before you begin using FitDeck Bodyweight, consult with your physician. This is especially important if you are over age 35 and/or are new to exercise.
2. If while using FitDeck Bodyweight, you feel faint, lightheaded or dizzy, experience undue stress or feel pain, stop exercising immediately and consult with your physician.
3. Review the 50 FitDeck Bodyweight Cards and ensure that you can safely and properly perform the suggested exercises. If you are uncomfortable with any exercise for any reason, remove it from the deck until you feel confident that you can perform the exercise safely.
4. Always choose the proper intensity level that best suits your physical strength and ability level. Know your limits and train within them.
5. Use common sense when exercising.
