

# Enagic® Water Generators

# Cost (with Sales Tax of 9.75%)

**Leveluk R**                      **Starter Unit**                      **\$1,480.00 (\$1,647.30) or (\$547.30 & 10 pmts \$120)**

The Leveluk R is equipped with 3 small electrodes and produces three types of micro-clustered alkaline drinking water. It also produces 6.0 pH beauty water and 7.0 pH clean water. With its compact body, it was designed to function primarily as a starter/travel unit. The pH range of water from this machine is 5.5 to 9.5, and its antioxidant measurement reaches -350 ORP. Enagic® offers a 3 year warranty with this device.

**Leveluk JR11**                      **Base Model**                      **\$2,380.00 (\$2,635.05) or (\$665.05 & 10 pmts \$207)**

The JR11 is built with 3 large electrodes which are capable of producing strong acid water, pH balanced beauty water, clean water, three separate alkaline drinking waters, and strong Kangen Water™. The pH levels of its water will range from 2.5 to 11.5, and its maximum antioxidant reading is -375 ORP. This product comes standard with a 3 year warranty.

**Leveluk DX11**                      **Deluxe Unit**                      **\$3,280.00 (\$3,622.80) or (\$752.80 & 10 pmts \$297)**

The DX11 is equipped with 5 large electrodes and is capable of producing strong acid water, pH balanced beauty water, clean water, three separate alkaline drinking waters, and strong Kangen Water™. Its added plates allow for a stronger antioxidant measurement of -625 ORP as well as longer-lasting water properties. It has been designed with voice-prompting technology to assist with water production. The pH level of water from this machine also ranges from 2.5 to 11.5. A 3 year warranty is offered with this device.

**Leveluk SD501**                      **#1 Selling Unit**                      **\$3,980.00 (\$4,391.05) or (\$951.05 & 16 pmts \$225)**

The flagship model, the SD501, is built with 7 large electrodes. It produces strong acid water, pH balanced beauty water, clean water, three separate alkaline drinking waters, and strong Kangen Water™. Its seven plates allow for extraordinary levels of antioxidants (-800 ORP), incredible water quality, and a machine life-expectancy of over 15 years. As with all other models (except the Leveluk R), this generator produces water with a pH range of 2.5 to 11.5. Enagic® offers a 5 year warranty with this device.

**SD501 Platinum**                      **Designer Model**                      **\$4,280.00 (\$4,720.30) or (\$1,280.30 & 16 pmts \$225)**

The Platinum's newly designed outer case surrounds the same power plant that is found in the SD501. It also produces strong acid water, pH balanced beauty water, clean water, three separate alkaline drinking waters, and strong Kangen Water™. Although its performance is identical to our flagship SD501, its price is slightly different due to its sleek stainless steel appearance and five different language settings. It also comes with a 5 year warranty.

**Leveluk K8**                      **Most Powerful Unit**                      **\$4,980.00 (\$5,488.55) or (\$1,328.55 & 16 pmts \$270)**

The K8 offers an amazing 8 electrodes with its construction. This increases the electrolysis surface area, improves water ionization, and heightens the antioxidant production potential of the water. It includes a worldwide multi-voltage power supply with interchangeable plug capability, on-screen cleaning instructions, and an automatic filter reset. It has auto-on/auto-off capabilities, a large full color LCD touch screen panel, and offers its users 8 different language options. It produces all 7 types of water, and it also comes with a 5 year warranty.

**Super 501**                      **Commercial Unit**                      **\$5,980.00 (\$6,604.05) or (\$1,484.05 & 16 pmts \$330)**

The Super 501 is equipped with 12 electrodes housed in two separate generating chambers. It is designed for producing large volumes of water when frequent changes in the pH level are desired. It is fully-automated and pressure-regulating. It produces each of the different waters, and it comes with a 3 year warranty.
