The 100 Reasons to get perfect nutrition in simplest form everyday

The National Library of Medicine's Online Database at: www.pubmed.gov

In May 2005, *Natural Health Magazine* proclaimed that a product, Original Limu, was the #1 liquid nutritional supplement. The Limu Company earned exclusive rights to the extraction process and was ONLY a one-year company at the time. *Natural Health Magazine* gave their exclusive product Original Limu the #1 ranking, saying **THEY COULD NOT DENY THE SCIENCE BEHIND THIS SEA PLANT**. See the science yourself. View other research on www.fucoidan-life.com; click on English (translation).

We encourage you to do your own research, go to www.pubmed.gov, put Fucoidan in the search – this is the nutrient only found in sea based vegetables. You will see over 1000 third party, independent studies from scientists all over the world dating back to the early 1970's. To narrow the search, put a forward slash and your health issue. For example: Fucoidan/cancer.

Scientific studies from **The National Library of Medicine** confirm that the Fucoidan in Limu has the following health benefits:

"LIMU products are not drugs and have not been evaluated by the FDA. They are simply dietary supplements and are not intended to diagnose, cure or treat any illness or disease. While your body may experience amazing positive health responses when you feed it the right nutritional building blocks, and there is indeed reliable scientific evidence supporting the beneficial effect key ingredients of LIMU products have on the immune system, there is insufficient scientific evidence to support some of the specific therapeutic results reported by users of the product. We therefore promote LIMU products for their benefit on the immune system but we do not, and you must not, promote the products on the basis that it will cure, prevent or treat any disease."
